

Orchard House

DENTAL CARE

Welcome to Orchard House Dental Care

Thank you for choosing us for your Dental Care. Our aim is to provide high quality care to all, in a modern, safe and comfortable environment. We respect and understand that each of our patients are individuals; and we therefore strive to tailor our care and treatment to each person's needs, wants and often limitations!

We understand many people are anxious about visiting the dentist, especially if they haven't attended for some time, and we will always do our best to put you at ease and make the experience as pleasant as possible. Your first dental appointment with us usually takes around 20 minutes, and will allow us to introduce ourselves and discuss any concerns or questions you may have. We will cover your medical history and carry out a complete examination of your oral health, including a visual screen for oral cancer, and x-rays if appropriate. If we identify a need for further treatment this will be explained, with any costs involved given. If required we can refer to colleagues for treatments we do not offer, such as Sedation. We will also, if requested, advise you which Dental Plan may suit your needs and requirements.

We offer 3 different types of Plan: Annual, Basics and Routine where you would pay a monthly or annual fee, and they differ by the frequency of check-ups and treatment included. In order to join the most suitable plan we recommend you discuss this with your dentist at your New Patient Exam appointment.

Once you are dentally fit after your initial New Patient Exam and Treatments, to help you decide whether to stay as a Fee-per-Item patient or become a DPAS Plan member, please see the Private Fee list and Plan comparison on our Website, under Dental Treatments Prices.

To arrange your first visit you can call in person, telephone or send an email. We will be happy to take your details and arrange a convenient appointment. If once made you are unable to keep your appointment, please be so kind as to let us know at least 24 hours beforehand, so your slot can be reallocated to another patient.

A Medical History form is given below. Please be so kind as to print a copy, complete both pages and bring to your first appointment to avoid delaying you longer than necessary, or alternatively call into the Practice for a copy. If you have a long list of medications, please bring a recent prescription, so we may add them to your records.

If you have any further questions or queries, please do not hesitate to contact us.

We look forward to meeting you.

With Kind Regards,

Val Cook
Practice Manager

Orchard House Dental Care Confidential Medical History Form

To obtain the safest treatment, your dentist needs to know of any health problems that may affect your treatment

Title:	Name:	Date Of Birth:
